

## The Radiochemistry Society

The Radiochemistry Society was formed through the collaborative efforts of many scientists and professionals with the vision of establishing an International Resource that provides governments, agencies, and individuals with the technical support and guidance on issues dealing with radiochemistry, radiometric measurements, medical isotopes, and international nuclear safety and security issues.

The Radiochemistry Society is also deeply committed to the education and promotion of young scientists entering this important area of science. The Radiochemistry Society provides professional support to its members via non-governmental outlets of information, certification and consultation to all stakeholders. The Radiochemistry Society accomplishes these goals through public outreach, community involvement and partnerships with the private sector as well as governmental agencies. The Radiochemistry Society is a non-profit 501C3 entity and all membership dues and donations are tax deductible.

## Make A Difference

Will Rogers once said, "Everyone complains about the weather, but no one does anything about it." Additionally, for years scientists have lamented about the decline world wide in the number of well trained radiochemists. This is your opportunity to make a difference. The Radiochemistry Society has adopted the motto **Helping Other People Excel** (H.O.P.E) and we are making a difference. However, we can not do it alone and your support is vital. Together we can make a difference – Join Today!

## Membership Benefits

- Subscription to the Radiochemistry Society Journal
- Monthly Newsletter
- Tri-linear Chart of the Nuclides e-Version reference Book
- On-line Submittal of Resumes
- Fellowship Support

## Professional Memberships Packages

➤ **Fellow Members..... \$95 annually**

New members packages, which include a membership certificate, welcome letter with ID card, a New Member Bulletin, and other information, are sent to new members within 4-6 weeks.

➤ **Founding Members..... \$95 annually**

➤ **Student Membership..... \$95 annually**

Student memberships include a subscription to the monthly newsletter and the Radiochemistry Society Journal.

➤ **Lifetime Membership..... \$1,500**

For a one-time fee, members can retain their Radiochemistry Society membership for life. Lifetime members will be sent a yearly statement to update address and membership information, order publications, and to make voluntary contributions to the scholarship fund, and public education programs.

*\* NOTE: Overseas membership, upon request, will be invoiced \$54 for shipping/handling fees of printed materials.*

## Scholarship Contributions

Many people have contributed to your education. Scholarship contributions provide a means for you to give this same gift to others. Many have talked about the need for academically training in the sciences and specifically radiochemistry. This tax deductible contribution provides a path for you to make [a real and significant difference](#). Contributions to the scholarship fund supports:

- Public Education and outreach
- Scholarships for Economically Disadvantaged Student
- Academic Scholarships
- Academic Chairs and Endowments
- Scientific Mentoring
